Canada's Wheat Yield

391,819,000 Bushels

A wheat yield of 391,819,000 bushels for 1925 for Canada, as the preliminary bulletin of the Dominion bureau of statistics. The yield last year was 392,000,000 bushels. The average yield in bushels per acre for all Canada are estimated as follows—Fall wheat, 29.9, as against 28.5 last year; spring wheat, 17.4, as against 11.3 in 1924; all wheat 17.5, as compared with 11.9 bushels per acre in 1924.

The fall wheat estimate for this year is 23,697,000 bushels, and the spring wheat 365,122,000. The estimate for oats is 51,827,000 bushels, as compared with 60,976,000 bushels in 1924.

Alberta's yield is estimated as follows—Wheat 10,856,000 bushels, compared with 11,312,000 in 1924; oats, 91,829,000, as against 95,251,000 last year; barley, 10,729,000, as against 12,347,000 in 1924.

To Discuss Canadian Marketing Methods

The Ontario legislature's special committee on wheat marketing, headed by the Hon. J. H. Macdonald, provincial conference at which representatives of all the provinces and the Federal government will discuss the recommendation for a national export marketing commission to handle Canadian wheat and marketing.

Preliminary questionnaires have been sent to all provincial ministers of agriculture asking before then the committee and the conference the committee hopes to evolve a comprehensive marketing scheme to improve marketing conditions for Canadian farm products in the overseas markets.

Menominee Still Returning

Another party of Menominee who were induced to move to Mexico have returned to their former homes in Saskatchewan, admitting that they made a big mistake. In Mexico they bought 100-acre farms at \$10 per acre, paying half down and the balance in wheat. They were to have been repaid when the wheat was sold. They state that climatic conditions were not suitable for wheat and that the crops could not be successfully grown without irrigation. The principal crop grown were beans. While taxes were low on land, the government laid on every thing sold—the rate on beans being \$5 a ton and on butter 25, a pound.

Peace River Railway Rates Reduced

Reduction of rates on grain for export from points on the E. D. & B.C. line to the Peace River have been announced by the office of the Canadian Government. The new rates apply to shipments sent west bound, and will mean a considerable saving to the farmers in the Peace River country.

The reduction will be based on average of 6 cents per bushel on grain and there will also be reduction on the rate of freight. The Peace River grain has also been reduced, and are already in effect.

Establishment of marketing agents for grain, including Winnipeg and Winnipeg is now being undertaken by the Government. The Alberta Co-operative Livestock Producers' Association, according to information issued by the office of the organization.

Big Oil Company to Operate in Alberta

The famous Dutch Shell Oil Co. with activities all over the world, and in which the British Government is a heavy shareholder, has decided to enter the Canadian field. This word comes from Ottawa in the latest copy of the official Canadian Grants, announcing the incorporation of a million dollar Canadian Shell Oil Development Co.

It is the forecast of big development in the oil fields of Western Canada where the Shell people have been an eminent group. John Irving Moore, investigating the oil fields in Alberta for the past two months.

Cutting and Threshing in One Operation

R. C. Cook, M.L.A., Wheat Creek, is cutting and threshing his crop with one operation. He is on a machine driven by eight horses, cuts a swath three feet wide, and then 10 to 16 inches deep. The machine is a combination of a threshing machine which is operated by a h.p. motor. Only enough straw is cut to get the heads. This is elevated to a low blower or header and the straw is blown into the threshing machine. The straw is then cut into small pieces and the grain is blown into a truck. The straw is then blown into a truck. The straw is then blown into a truck.

Bow River Liberals to Select Candidates

The Bow River Liberals will hold a convention to name their Federal candidates in Calgary on September 26. The convention will be open, and it is understood Mrs. Chas. Stewart will be present. One of the candidates will be J. G. O'Brien, the Progressive member for the constituency of Bow River.

In connection with the Liberal convention, J. G. O'Brien, the Progressive member for the constituency of Bow River, will be present. J. G. O'Brien, the Progressive member for the constituency of Bow River, will be present.

Education Pays on The Farm

A statistic shows that farmers who have had an education make larger incomes than those who have not. It was thirty years ago. Education has changed greatly in this period. Their farmers can do more with their land. They can do more with their land. They can do more with their land.

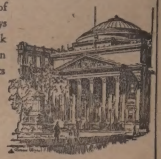

The farm house had no conveniences. There were no conveniences. There were no conveniences. There were no conveniences.

New farmers have larger farms. They can do more with their land. They can do more with their land. They can do more with their land.

Let Your Banker Collect It

If you wish to collect a debt from a party in another section, you can have your banker draw a draft on him at sight or for a given time. This will be presented through his local banker as request for payment from you. When your draft is paid it is turned over to the payer. It is his receipt for an account paid.
